Co je zotavování? (Kuba)
 Rozhodně nějaká podpora, vhodná podpora, hodně přijímající, tolerující různý přeshlapy, neúspěchy a představa nějakého otevřeného konce. Není to jen cesta k uzdravě, ale i transformaci. Je to mnohovrstevnatý proces, ale hlavně je otevřenost, přesahovost, že to není jen léčení a význam podpory, která je hodně přijímající a přesahuje expertní rámec.

Peer konzultace je během zotavování obousměrně přínosná.

Cílu dělat z peerů lektory na vysokých školách
